Data-Vision Announces Interface with FIPCO

MISHAWAKA, IND. – April 13, 2012 – Data-Vision, Inc., a leading pioneer in Internet lending technologies that enable mortgage lenders to quickly and affordably implement innovative web portal and e-lending capabilities, announced today that they have entered into a DU3.2 interface agreement with Financial Institution Products Corporation (FIPCO®). A wholly owned subsidiary of the Wisconsin Bankers Association, FIPCO is widely regarded as a leader in financial services form sets, loan and deposit software and document imaging.

Data-Vision President, Randy Schmidt, stated, "We are honored to be working with FIPCO. We welcome the opportunity to bring our industry leading online lending tools to FIPCO's client base".

As the mortgage market evolves and borrowers demand more online lending tools from their lender, Data-Vision has a proven track record of delivering innovative products and services to the hundreds of financial institutions that it serves. They understand that being able to deliver a consistent borrower experience across all lending channels through a dynamic single online lending platform improves customer satisfaction in the most cost effective manner.

FIPCO President, Pamela Kelly, stated, "We are pleased to offer the DU3.2 interface to Data Vision customers. This interface will seamlessly integrate data from Data Vision into Financial Link® software, providing users with direct and timely access to accurate information, while virtually eliminating the potential for costly errors that can often result from duplicate data entry."

###

About Data-Vision
